

Shark Tank AI — Pitch Report

Startup: InterviewAce AI

Funding Ask: 12 Crore for 12% equity

Pitch Summary

Problem: Students and job seekers struggle to prepare for technical interviews because existing platforms are either too generic, expensive, or lack personalized AI-driven feedback.

Solution: An AI-powered interview preparation platform offering mock interviews, resume analysis, personalized feedback, coding practice, aptitude preparation, and placement roadmaps in one platform.

Revenue Model: Freemium model with Premium monthly subscription, institutional licensing for colleges, and recruiter partnerships.

Target Audience: College students, fresh graduates, internship seekers, and early-career professionals preparing for placements.

InterviewAce AI shows real promise, particularly in Innovation (82) and Execution (76), but the sharks aren't fully convinced on scale yet. Instead of a full investment, one or more sharks are interested in acquiring a stake or the underlying technology to fold into an existing platform, reducing risk while capturing the upside.
